

## Requirements for Week 6

### Required Readings

- Read Chapters 7 and 8
- Any Notes Provided

### Discussion 1

During childhood (beginning in early childhood through late childhood), children develop a sense of "self". Child maltreatment or abuse can affect the socioemotional development. After watching the video series in this module, please post your response. In your response, consider what you may have done differently, what parenting style would classify the parents and why, how the maltreatment may affect the children's development, as well as your reaction to the video. Please be considerate of your classmates in your responses and allow for intellectual differences of ideas.

### Discussion 2

How does your book classify Intelligence (i.e. explain the theories of intelligence and intelligence tests)? Describe the programs available for those with learning disabilities or below average IQ? How is someone with a learning disability different than someone with below average IQ?

### Chapters 6 and 7 Quizzes
